INTERVIEW SUMMARY: SITE IS A STRUCTURE
AMID A GROUP OF STRUCTURES. SITE IS TALL,
WIDE, BIG. IT HAS AN OVAL REDDISH
CONTACT. STRUCTURE HAS OWN AREA BESIDE IT.
("PARKING LOT") WHICH HAS LOW APPEARANCE. STRUCTURE
IS LOCATED ON FLAT, POSSIBLY RISING LAND. SITE
AT PRESENT TIME HAS STRONG "SNOW-COVERED" DRIVE.
SITE HAS A STRONG "TASTE" WHICH IS VERY IDENTIFIABLE
AS THICK (L.A. TYPE) SMOKE.

SUMMARY: Bldg at site is a large, redish (probably brick) bldg. It is tall & squarish. It seems to be arranged in a pattern which has some inner open area, possibly several inner areas. Near bldg is a large open area. Bldg is in an area of similar-sized bldgs.

Inside bldg is clean, but old, dim, & yellowish. Poorly lit. An overall impression of small, narrow & intricate hallways, stairs, etc.
